

Intersect Studio is seeking a technically inspired, passionate, hard working & focused Senior Architect Lead to join our team!

Who we are:

Intersect Studio is a Design, Architecture, Planning & Graphics firm focused on creating great experiences and helping people live more fulfilled lives through our work. We are dedicated to a process which results in Happy, Healthy & more Connected people and being amongst the best places to work! Our Studio is a highly collaborative, supportive and creative culture. We breed encouragement and competence in order to exceed expectations on exciting and inspired architectural & design projects. We endeavor to propel our clients to achieve more than they thought possible. We expect that our client engagement experience we provide is as memorable and the places we create for them.

What we do: Calibrated design experiences.

Clients: Those that want to make a positive difference for people: Workplace, Hospitality/ Retail, Financial, Multi-Family, Higher-ed, Community, etc.

Why we do it: Meaningful design empowers people to live more fulfilled lives.

How we do it: Intersect's core values are the building blocks that guide us in all that we do. Optimistic Attitude - Remarkable Hospitality - Compassionate Confidence - Edgy Dreamers - Stronger Together

Your Role:

As a **Senior Architect Lead** at Intersect, your expertise in leadership, design and technical implementation will help guide Intersect's process and creation of exceptional, human centric design solutions for our diverse range of clients.

You will play a crucial role in leading and managing our architecture team on projects of a variety of project types & sizes through all phases of design utilizing Intersect's process; from concept development to implementation of technical documents for projects.

You will lead our Implementation Action Team to improve the methods, processes, and tools that contribute to the growth & advancement of the organization through delivering our best work.

You will be working collaboratively with our Leadership team to help guide our growth and continuous improvement.

What will make you successful:

Your Qualifications and Strengths would include the majority of these

- Advanced degree in Architecture or Design preferred, with a rigorous design education
- 10-15 years including demonstrated experience on architectural projects including interior architecture and exterior detailing
- BIM proficiency - ArchiCAD or Revit
- Advanced knowledge and application of Building Codes
- A strong design sensibility which leads to the enhancement of design through technical innovation and processes

- A strong management sensibility to allow for efficient and systematic incorporation of the Quality Assurance program into the project process
- High level technical skills and experience in Construction Document (Drawing & Specification) Preparation
- Experience in full cycle Bidding & Construction Administration on multiple projects
- Applicable knowledge of industry standards & resources
- You are an educator capable of investing time to grow our very talented staff in technical communication skills
- Experience in leading and mentoring multiple project teams in technical delivery concurrently
- Flexibility to focus on concurrent projects in various stages of development
- Excellent written and verbal communication and the ability to lead and mentor
- Ability to maintain existing client relationships and build new client relationships through excellent delivery and technical guidance
- Ability to handle difficult situations with tact, grace and style
- Collaborative, team-conscious, and detail oriented

What you can expect at Intersect:

Our Cohorts are collaborative, creative & professional. Joining our team requires skill, daring leadership, teaming, an optimistic attitude, a love of design & people.

- Collaborate with the Director of Architecture and Design on Architecture implementation strategies
- Enhance the quality of Intersect Design through strong technical support
- Establish a leadership position and role model for technically oriented staff
- Lead the Technical Implementation of projects and ensure overall technical quality of work across the Studio
- Oversee the Quality Assurance Review Process for multiple projects
- Oversee technical aspects of projects to be sure they are in concert with project scope, design, budget, client goals, consultant coordination and core requirements
- Provide mentorship and lead technical educational programs for the office
- Improve the quality of our deliverables and reduce risk
- Improve the efficiency of our document production effort with new systems and processes

We are focused on aligning our cohorts' passions and skill sets with the needs of our clients; and ditto in reverse. You will help challenge the team to grow and achieve more each day as they learn and develop. You will bring passion to the pursuit of utilizing design as a powerful tool to celebrate stories for those we engage with. We will mentor you in our point of view about how we approach the world of design and you will have the opportunity to help direct the future. We partner with our team so we can all achieve success!

Compensation / Benefits:

Competitive wages, PTO (Vacation & Holiday), Health/Life/Dental Insurance, 401K w/ company match, Childcare benefit, professional license support, professional development support, fun perks, awesome work culture!
